Assessment Criteria

Criteria	Basis
Proportion of Builder Owned Lots in Application	The higher percentage of lots owned by the builder, the less reimbursement funding needed and more reimbursement \$ is available for other projects
Project Readiness	The further along the project status, the faster it can be developed
Immediate Connection Commitment	Facilitates faster buildout of non-builder owned lots and ability to connect more customers to the system (CIAC reimbursement to Toho)
Total # of lots served per LF of sewer	Projects with greater efficiency in lots covered for the same length of sewer
Project Completes an Area	Supports completeness of Poinciana development area for service
Complete Application	Prioritizes applications with complete information required to evaluate proposed project

Existing Prioritization Requirements

- If participant in current prioritized project list (above line):
 - Get construction plans approved
 - Secure three competitive bids
 - Prepare for Builder Line Extension Agreement and responsibilities

- To maintain existing reimbursement prioritization you must have an executed Utility Line Extension Agreement in place by February 28, 2023
- Else, to keep proposed project in the Builder Reimbursement Process, you must reapply during upcoming application cycle and your project will get re-prioritized amongst all current applications, application deadline of February 28, 2023
