3815 and 3915 W Vine Street precautionary boil water advisory

Kissimmee, Florida (Monday, April 28, 2025) - Toho Water Authority (Toho) is announcing that once service is restored, a precautionary boil water advisory will be in effect for customers located at 3815 and 3915 W Vine Street in Kissimmee.

This is due to a water line break in the area. Service is expected to be restored by midnight. Schedules may change due to weather or unforeseen circumstances. The precautionary boil water advisory will be in effect until lifted by Toho.

As a precautionary measure, customers are advised to boil their water for one minute prior to consumption (drinking, cooking, making ice, brushing teeth or washing dishes). As an alternative bottled water may be used. Water used for laundry or bathing/showering does not need to be boiled. Food industry guidelines are attached.

An update will be provided on Wednesday, April 30. In the meantime, regulatory testing will take place to make sure the water meets drinking water standards.

For more information, contact Toho's customer service at 407-944-5000 or visit our News & Alerts section on tohowater.com

###

Toho Water Authority (Toho) is the largest provider of water, wastewater and reclaimed water services in Osceola County. Formed in 2003 by a special act by the Florida Legislature, it currently serves over 160,000 customers in St. Cloud, Kissimmee, Poinciana and unincorporated areas of Osceola Polk and Orange counties.
